Information and Application Form

Alcohol and other drug addiction is the cause of serious human, social and financial consequences for individuals, families and all communities in Massachusetts. Every aspect of our social service, health care and criminal justice systems bear significant financial burdens due to addiction. It is time to address this problem by seeking adequate funding for prevention, treatment and recovery support services and improved legislation and public policies.

The purpose of this training is to identify and train a network of new advocates. We hope to recruit a broad range of interested people to attend our training to learn how to advocate and the strategies needed to take action. Our goal is to achieve major improvements in state funding, legislation and policies by building a large cadre of advocates and leaders for alcohol and other drug issues.
